

FSI Networking Solutions

FSI can provide the answer to all your networking needs.

We offer a full range of networking solutions including Linux, Windows and Novell networking packages, and we will provide you with comprehensive and accurate requirement and cost analyses at the outset.

With all solutions you will receive comprehensive and straightforward documentation.

Upgrades

- ▶ Guaranteed minimum of downtime
- ▶ Seamlessly migrate legacy applications and databases across to your new server
- ▶ Add new functionality to your present server, including file, print, application, mail, DNS servers
- ▶ Expand your existing network
- ▶ Switch to wireless solutions
- ▶ Provide alternative ways to maintain and manage you server and database
- ▶ Improve and enhance your existing local and group policies as well as security policies
- ▶ redesign and optimise network infrastructure according to your requirements
- ▶ Enhance server security
- ▶ Enhance your backup solutions

Installations

- ▶ Design and map the topology of your network infrastructure
- ▶ Implement solutions for scalability
- ▶ Provide effective and efficient solutions for print server, file server, applications server, mail server, media server and AD server, based on your requirements
- ▶ Deal with hardware providers on your behalf to ensure you get the best deal available

Network security

Our intrusion protection solutions are second to none. We can design and implement network security policies (including firewall, antivirus, IDS, IPS solutions) that will bring you lasting peace of mind. We can run full tests on your present system and provide a comprehensive analysis of its performance along with the necessary solutions and fixes.

Our senior networking engineer is presently designing a system for testing the efficacy and identifying the strengths and weaknesses of all the major Intrusion Prevention Systems (IPSs), so you know that, when it comes to network security, FSI's expertise is by far the best in the field.

Testimonial

Excellent – work carried out in a very professional manner

Terry Broadbent.

Managing Director, Cristel Graphics (28/04/05)
